

Xperience the FUTURE - Process Measurement TODAY 2017

Seminar Program

Time	Topic	Speaker
08:30-09:30	Arrival and registration of participants	
09:30-10:00	One-Stop-Shopping at Endress+Hauser - Instrumentation, solutions and services supporting you to sustainably improve your process and products.	Mr. Suphot Pokpattanakul General Manager Endress+Hauser (Thailand) Ltd.
10.00-10.45	Services by your side - Introduce Endress+Hauser Services portfolio. - Improve process reliability with calibration and verification.	Mr. Boonsong Rieantragul Service Manager Endress+Hauser (Thailand) Ltd.
10.45-11.15	Coffee/Tea Break/Exhibition Tour & Networking	
11.15-12.00	Liquid Analysis from field to laboratory in one platform - Liquiline Transmitter CM44: Liquid analysis Multiparameter & Multichannel applicable for process control & Memosens Digital sensors. - Liquiline To Go CYM290/291: Multiparameter handheld- portable device for pH, Oxygen and Conductivity measurement etc.	Naraporn Wattanapassorn Product Manager – Analysis Endress+Hauser (Thailand) Ltd.
12:00-13:00	Lunch	
13:00-13:45	113GHz - The best offering for your level application - Complete portfolio for radar and guided wave radar measurement with best application know how. - FMR10/20 new 26 GHz radar with Bluetooth® commissioning, operation and maintenance app. - FMR6x new 80 GHz radar increase plant availability and improve productivity with more reliable level measurement.	Mr. Hubert Schmidlin Area Manager Endress+Hauser GmbH+Co. KG, Germany
13.45-14.30	Powerful instruments for process pressure, differential pressure and level - Ceraphire ceramic cell with overload-resistant, vacuum-proof and FDA conforming. - The new Cerabar and Ceraphant provide perfect fit for standard application. - Reliable, safe and cost effective by Electronic DP.	Mr. Hubert Schmidlin Area Manager Endress+Hauser GmbH+Co. KG, Germany
14.30-15.15	Flow measuring technology for lasting higher levels of safety, product quality, and availability in your process system - Proline 300/500 universal flow metering in all applications in the process industry. - Proline Promass Q 300/500 : The top specialist for challenging applications. Reduce product loss with real time temperature measurement - A complete assortment of compact thermometers, modular thermometers, thermowells, measurement inserts, transmitters and accessories for all types of process industries.	Mr. Kartikeyan Chellappan Product Manager – Flow Endress+Hauser (Thailand) Ltd.
15:15-15:45	Coffee/Tea Break /Exhibition Tour & Networking	
15:45-16:30	Energy Solutions - Reduce your energy costs from measured value to energy usage - Memograph M RSG45-Advanced data manager secure centralized monitoring and maintenance system. - RMC/RMS- Energy Manager for your applications.	Mr. Kartikeyan Chellappan Product Manager – Flow Endress+Hauser (Thailand) Ltd.
16:30-17:15	Endress+Hauser – from a supplier of instrumentation to a provider of complete systems - Inventory Management Solutions - From the level instrument through to your ERP system. - Fluid Management Solutions – High accuracy and maximum reliability with certified loading and offloading solutions for custody transfer applications. - Supply Chain Management - Internet of Things for your simple inventory control system to complex internet-based supply chain systems on a global scale, our solution for inventory monitoring guarantees full transparency for your success. - Tank and Terminal Management -terminal automation system include the simple, quick and secure collection and transfer of data throughout the facility.	Mr. Pech Leelapeeraphan Business Development Solutions Endress+Hauser (Thailand) Ltd.
17:15	Questions & Open Topics Lucky Drawn Closing
