

We understand how you are challenged every day to enhance your plant's safety and performance.

MAXIMIZE +CAPITALIZE

You gain more options to fit your needs, build-up product quality, increase safety, reduce costs and minimize risks.

Process Safety Seminar

Thursday, 6th September 2018

Grand Ballroom 1, Holiday Inn & Suites, Rayong

Souvenir for all participants
E+H Bluetooth speaker

Managing your risk is critical when working in the Chemical, petrochemical and Oil & Gas Industry. You must protect the community and environment, and preserve your assets. This requires skilled people, the right guidance and the right tools. What needs to be controlled must be reliably measured. Find out how our expertise can support you.

Topics:

- Overview Safety Instrumented System in the chemical and oil & gas industries
- The standard for Functional Safety: IEC61508, IEC61511
- Design of Safety Instrumented System
- Case study
- Simply reliable: Process safety from Endress+Hauser
 - Safety by design: Reliable measurement even under harsh condition
 - Safety and availability: Keep your process up and running. (The value of redundant architectures in SIS)
 - Safety and efficiency: Manage the safety life cycle (Proof Test)

Free Registration:  You have a chance to win the prize at the end of event

 Online registration: www.th.endress.com/Safety_seminar

Company name:

Endress+Hauser 

People for Process Automation

Time	Topics	Speaker
08:00 – 09:00	Registration of participations	
09:00 – 09:30	Welcome to Endress + Hauser <ul style="list-style-type: none"> - Introduction Digital tools you never knew you needed! 	Mr. Suphot Pokpattanakul General Manager Endress+Hauser (Thailand) Ltd.
09:30 – 10:00	Our services to optimize your processes and to support you. Introduction; <ul style="list-style-type: none"> - Calibration Services - Online commissioning 	Mr. Boonsong Rieantragul Services Manager Endress+Hauser (Thailand) Ltd.
10:00 – 12:30	Overview Safety Instrumented System in Chemical, Petrochemical and Oil & Gas Industry <ul style="list-style-type: none"> - What is process safety all about? - Why do we need process safety? The standard for functional safety <ul style="list-style-type: none"> - IEC61508 (Functional safety of electrical/electronic/programmable electronic safety related systems) - IEC61511 (Functional safety: Safety instrumented systems for the process industry sector.) Design of Safety Instrumented Systems Case study	Asst.Prof.Dr.Teerawat Thepmanee Automation Engineering, Engineer Faculty King Mongkut's Institute of Technology Ladkrabang
11:00 – 11:30	Coffee Break	
12:30 – 13:30	Lunch	
13:30 - 16:00	Simply reliable: Process safety from Endress + Hauser <ul style="list-style-type: none"> - Safety by design: Reliable measurement even under harsh condition - Safety and availability: Keep your process up and running. (The value of redundant architectures in SIS) - Safety and efficiency: Manage the safety life cycle (Proof Test) 	Mr. Gustavo Stasiejko Industry Manager – Chemical & Life Science
14:30 - 15:00	Coffee Break	
16:00 - 16:15	Lucky Draw & Closing seminar
